Dear Ms. Clifford,

I refer to your correspondence of 30 October, 2015 regarding a motion passed by the members of the Clondalkin Area Committee Meeting of South Dublin County Council held on the 21st October 2015 requesting a unique post code for Newcastle, Co. Dublin.

In the case of postal addresses the routing key refers to the principal post town allocated by An Post. There is no scope in the Eircode system to change eircodes, once a routing key is assigned to a postal address it will not change. I understand the concerns of the residents in this area of Dublin but there is no scope to change eircodes. Once a routing key and eircode has been assigned to a postal address it will not change.

Yours sincerely,

Alex White T.D.

Minister for Communications, Energy and Natural Resources
