**Subject:** Update on LED Programme and Proposed Programme for Q1 and Q2 of 2019

Dear Councillors,

To date, we have completed **9,928 upgrades** in the county since the programme's inception in early 2014. This translates to 35% of our total stock and we are well on track to meet our energy reduction requirements under the National Energy Efficiency Action Plan (2104) which requires South Dublin County Council to achieve an overall 33% reduction in energy consumption before the end of 2020.

Our original target of 1,655 upgrades for Q3 and Q4 of this year was not fully met for various reasons, including logistics and supply of fittings.

As stated before, these works are taking longer to complete due to the fact that a specialist ESNB-approved crew and equipment is required to make the upgrade. We are also finding that due to the age of the lighting equipment currently in situ, a lot of this must be replaced in addition to the new light fitting. These areas are being carried over to the 2019 programme as set out below.

We now propose to carry over **541 upgrades** from the 2018 proposed programme, and in addition, add another **926 upgrades** for completion before July 2019.

These include two regional roads – R148 and R120.

There remains a serious problem with the upgrading of any PL installations dating pre 1990. This is a technical regulatory issue that is currently being resolved at a national level. When a resolution is found, these estates will be given our first priority.

### 1. Carried over from Q3/Q4 Programme 2018

Electoral Area	Location of Upgrade	No. of Fittings	Total
Lucan	Culmore Road	12	
	Glenaulin Road	7	
	Glenmaroon Park	3	
	Culmore Park	3
