

Wellington Lane Walking & Cycling Scheme

Presentation Structure

1. Introduction (Jennifer McGrath, A/Senior Executive Engineer – Land Use, Planning & Transportation)
2. Scheme Background & Context (Robert Kelly, Director, DBFL Consulting Engineers)
3. Public Engagement Proposals (Naomi Murphy, Director, Connect the Dots)

Scheme Background: Study Area

Scheme Objectives

- Provide improved **cycle & pedestrian** facilities
- Deliver **safety** improvements for **all road users**
- Enhance **connectivity** for surrounding residential areas & amenities
- Improve modal split for walking & cycling to align with **Smarter**

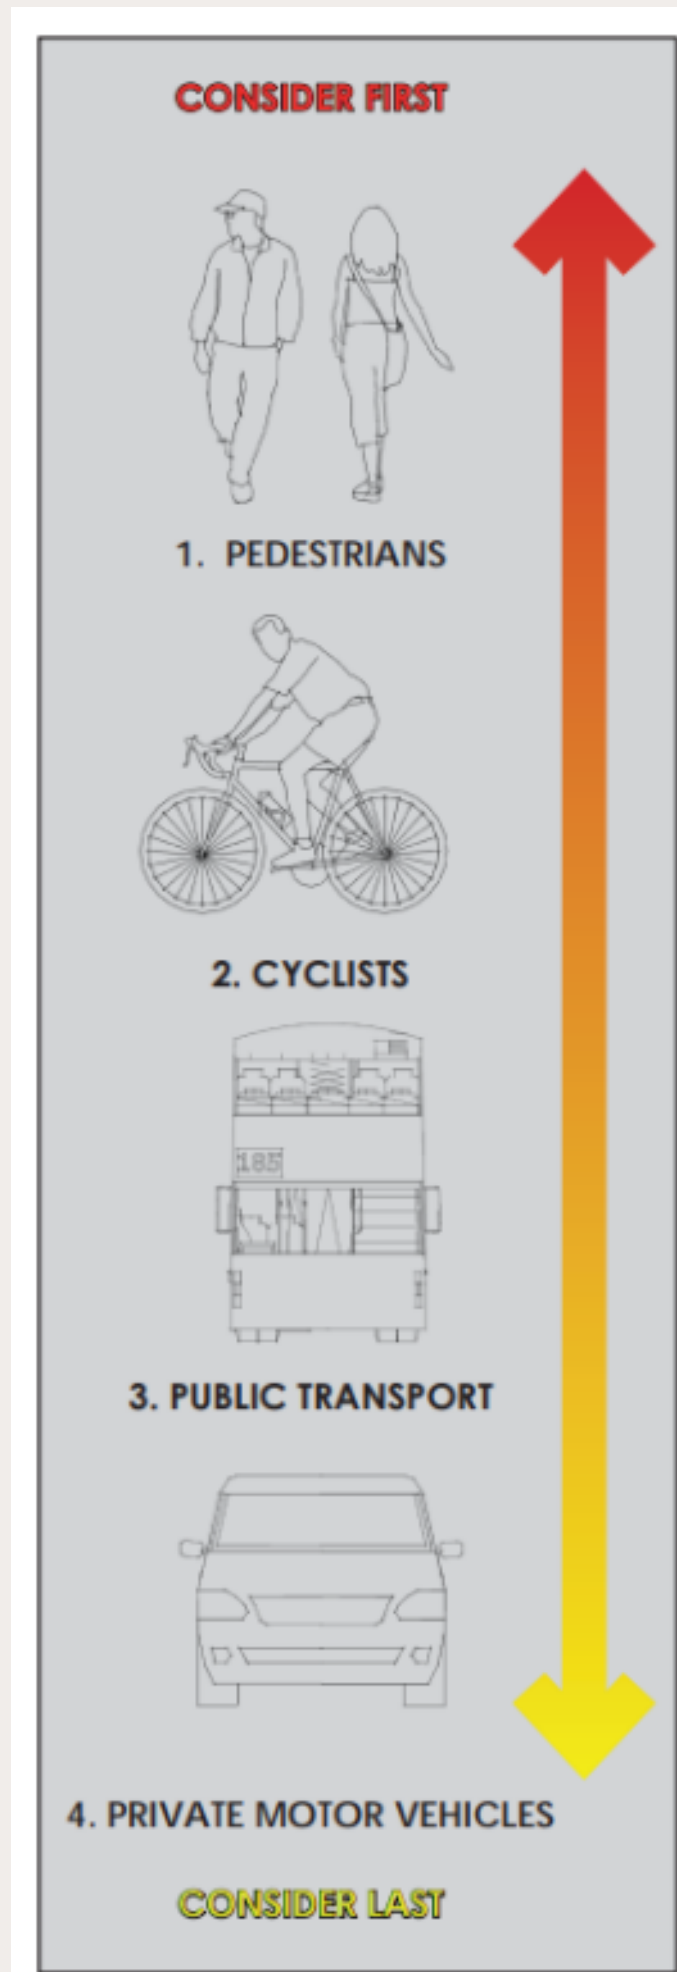

Travel & Climate Change Objectives

- Provide an **enhanced urban realm** & streetscape

Scheme Background

- Previous Part 8 for '**Wellington Lane – Whitehall Road Cycle Track Scheme**' was approved with amendments in 2012
- Upon analysis the scheme as amended was deemed unacceptable to SDCC on the grounds of Health & Safety
- Subsequent Issue of National Guidance (DMURS, 2013) also established the principles of **prioritising sustainable modes** and **sense of place** over movement of private vehicular traffic in urban areas
- DMURS advocated a more holistic approach to street design to create '**safe, attractive and vibrant streets**'

Hierarchy of Road Users (DMURS) & Current Conditions

Current Conditions

Current Conditions

Current Conditions

Reimagining the Wellington Lane Walking & Cycling Scheme

- **Safety** issues; alterations to current layout recommended by jury of coroners court in respect of fatality at Templeville Roundabout
- **Multi – disciplinary team** appointed to re-examine the issues holistically, to develop safety improvements for all road users but also to deliver place making and urban realm enhancements
- **Greater public engagement** to be a key facet of the scheme

Hello,
we are Connect the Dots.

We design engagement processes with
your stakeholders at the heart to help
you meaningfully **gather insights** and
drive **impact**.

We **engage** key stakeholders.
We custom build **together**.
We deliver **impact**.

Agenda

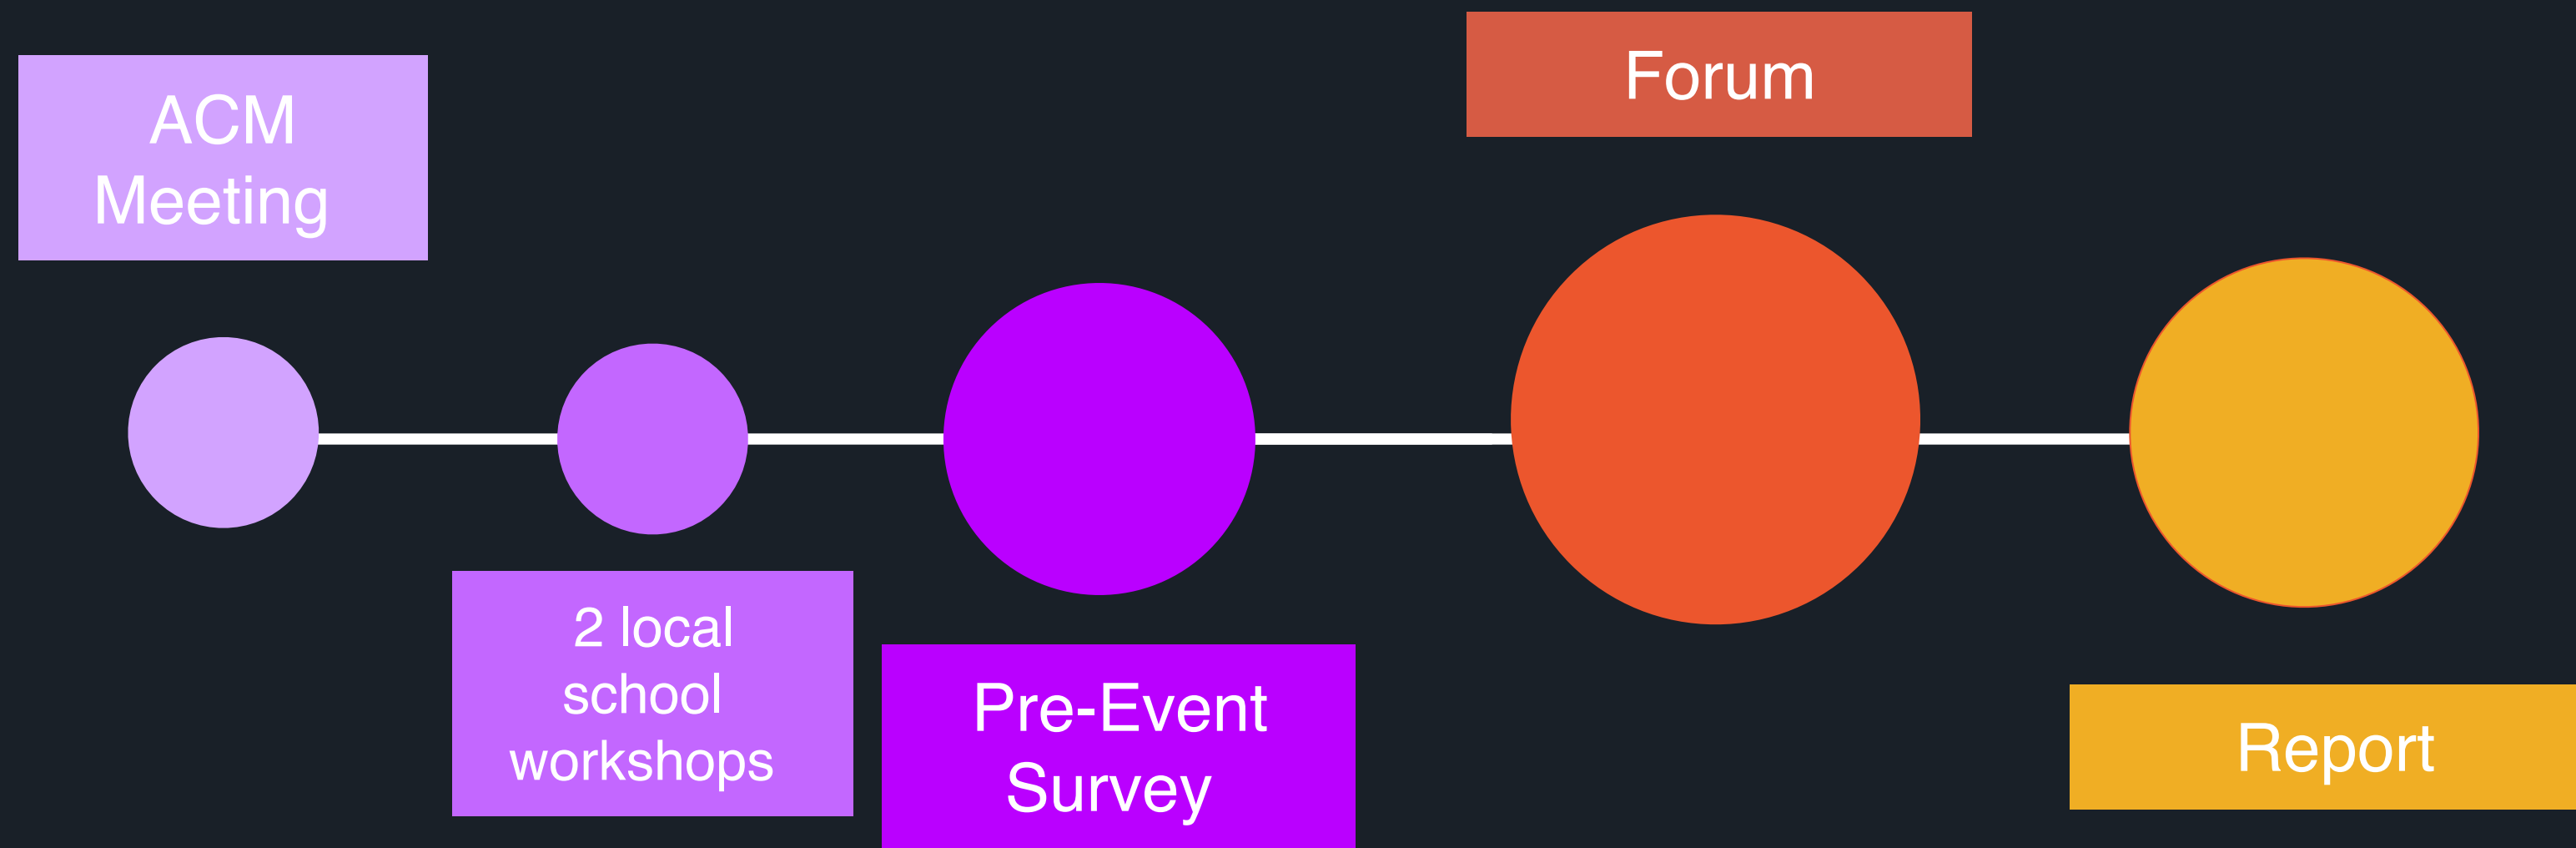

- i. Purpose of this session
- ii. Process overview
- iii. Timeline
- iv. About the Forum
- v. Questions

Purpose of this session

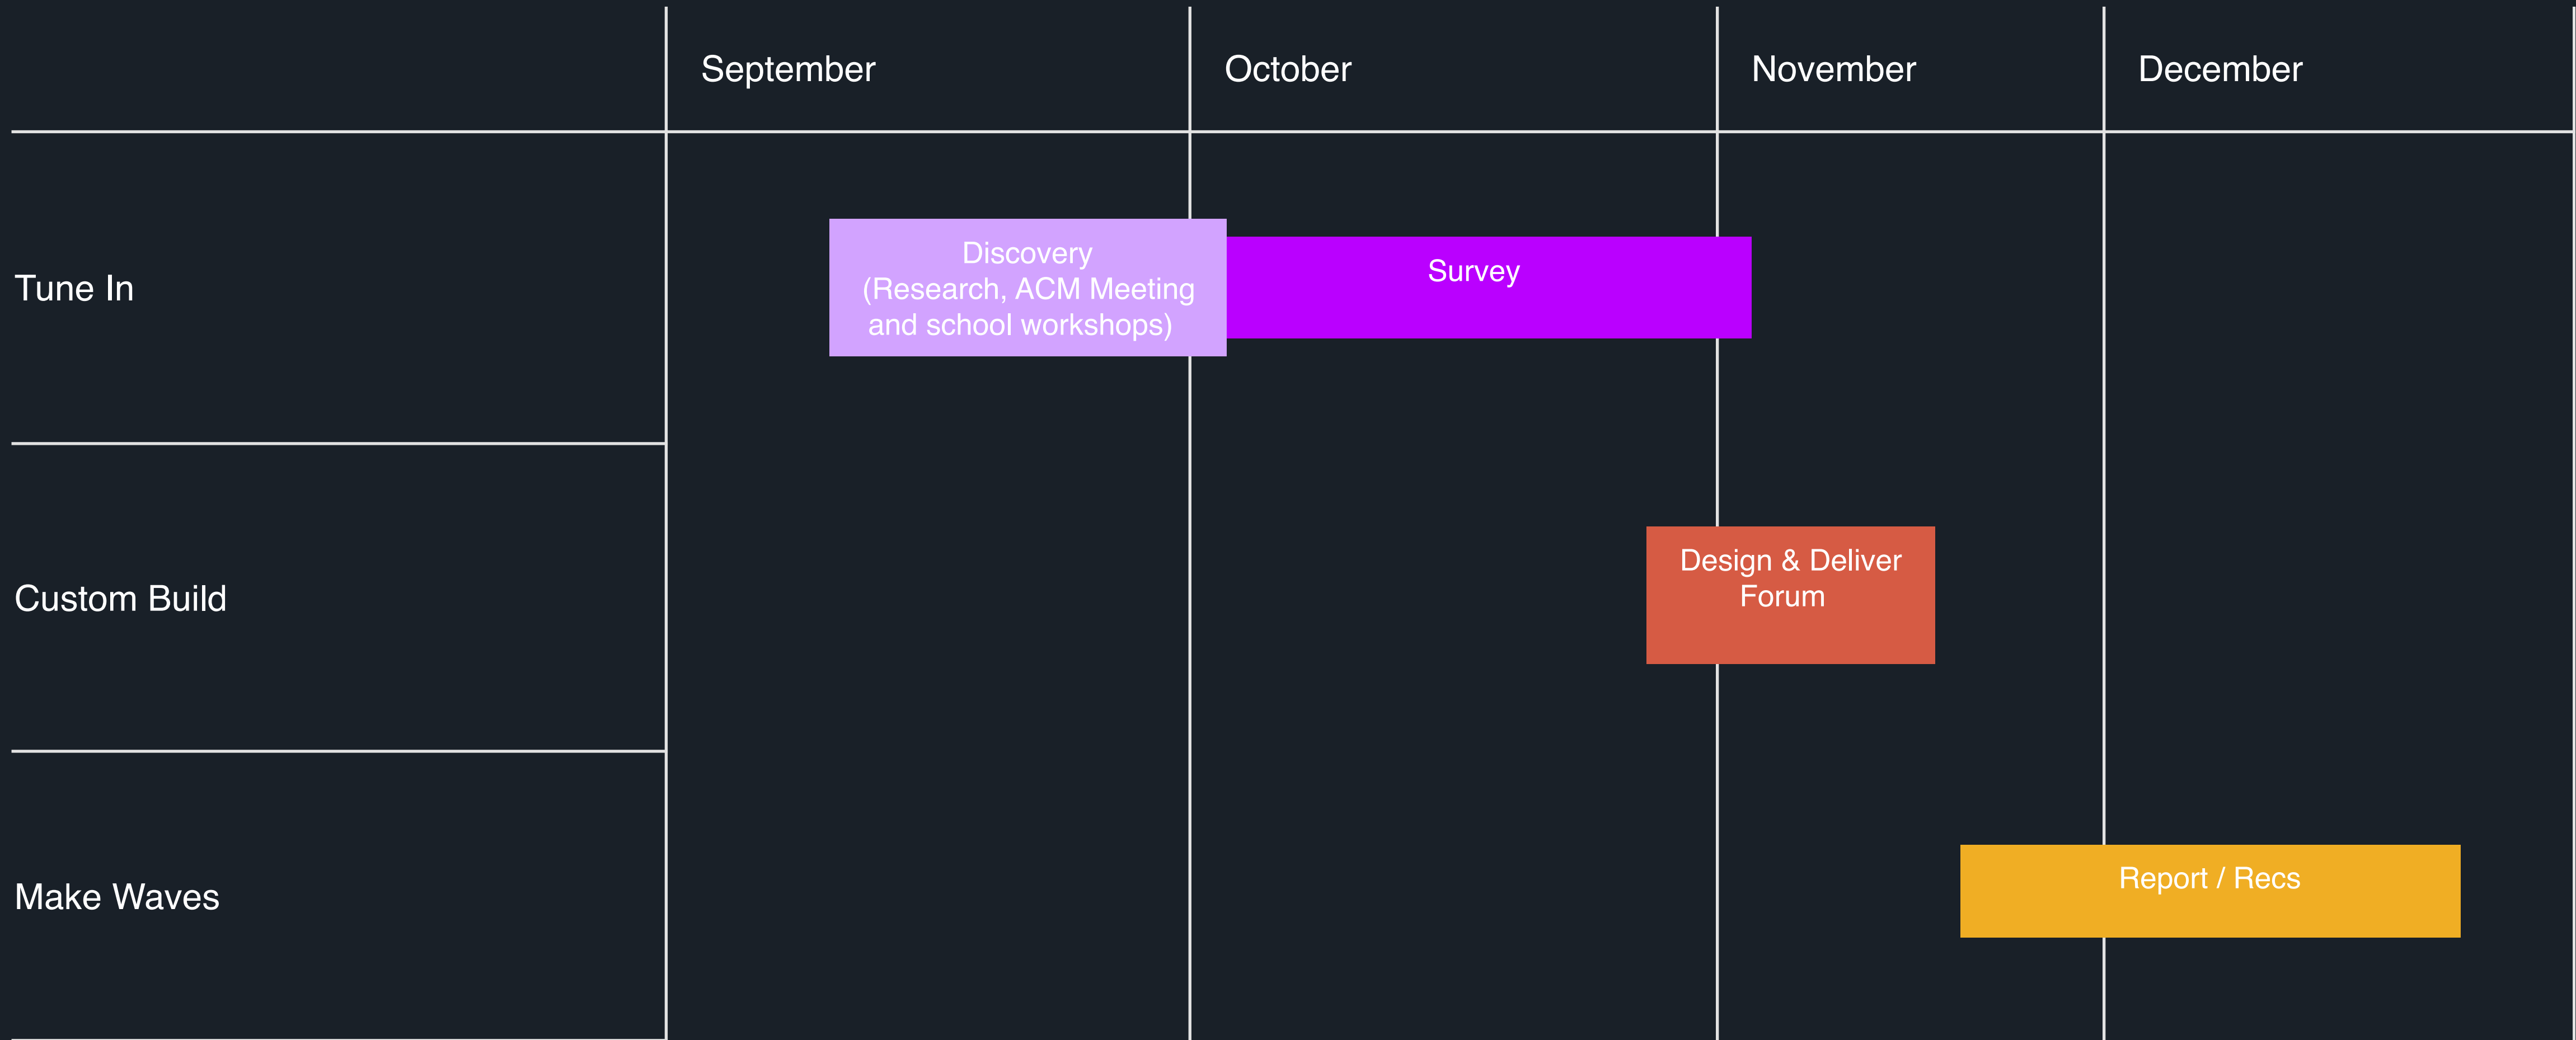

- As the very first step in this process, we need to listen to your initial thoughts and insights on the revised draft scheme and the focus group style meeting we are holding on the 20th November.
- To explain the concept scheme so far and the parameters around what can be influenced at this point.
- To get your input related to the consultation process to come;

Process Overview

Timeline

- One workshop with TY students in St. Mac Dara's
- One workshop with TY students in Templeogue College
- Survey and invitation sent out to invitee list

Remaining steps

- The focus group style event with a variety of stakeholders in the area
- Report with all findings collated from the schools workshops, the focus group, (and the Local Councillors workshop?)

The purpose of the forum is to meet with representative groups in the local community and understand their hopes and concerns for the concept scheme. The findings of this workshop will be compiled into a report highlighting ideas or concerns on the route which will assist in the next phase of design and development. This will lead into the Statutory Part 8 Process.

1. **The attendees** - What voices/perspectives do we need to ensure attend this forum in November? See our stakeholder list (Contact Jennifer if you have any additions).
2. **The draft survey & invitation** - Do you have any comments or questions? See draft survey (This has already been sent out).
3. **The process of consultation** - do you have any comments or questions?
4. **The proposed scheme itself** - do you have any comments or questions?

“ “ The format of the workshop developed by Connect the Dots provided a platform for members of the public to express their ambitions, interests, and ideas for the space as well as their hopes and concerns. The one of the evening created an inclusive and open environment which encouraged collaboration between diverse stakeholders with divergent perspectives.
