Dear Ms Reilly,

Thank you for your recent correspondence.

We note the recent motion of the elected Members of South Dublin County Council. Irish Business Against Litter engages An Taisce to monitor litter as defined under the Litter Act. This includes litter on public property, as well as litter on private property that is visible from the street.

To provide as representative a picture as possible of litter levels in a town or city, An Taisce's monitoring is carried out across a range of public, commercial and residential location types.

Irish Business Against Litter believes that excluding any location type risks undermining the integrity of our surveys. The case for excluding small social housing in particular is unclear to us and we would be interested to learn of the Council's reasons for proposing same.

Yours sincerely,

Conor Horgan

Spokesperson
