

ARENA MEETING POINT

The seating zone for teenagers

Arena® Meeting Point is an extension of our Arena® Sports System. Eye-catching and durable, Meeting Point is a seating and meeting 'hang around' zone for teenagers in parks and sports or play areas and also provides good value general seating in all public areas.

Arena® Meeting Point has individual lean-back seat segments with canopy roots which can be linked together to form a semi-circular arrangement of 1, 2, 3, 4 or 5 seats. All-steel, highly durable and requiring minimal maintenance, Meeting Point is proving to be a popular sight in all sorts of public areas.

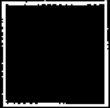

Colour Options:

As a result of our consultation with teenagers, Meeting Point is supplied as standard in their preferred purple and orange colour scheme. On request, we can also supply Meeting Point in dark blue and silver, at no extra cost. Other colours are also available to special order if there is another preference, although it is best if these are selected from our standard colour range, shown on page 5, for which there will be a nominal surcharge. If there is a specific requirement for a non-standard colour this may also be possible but at an additional cost. Please contact our Sales Office for advice.

Product Information Table Key

■ For some of the Meeting Points two figures are quoted for the minimum concrete foundations which will depend on soil conditions. Full installation instructions are available.
